

Mum Makes

Cuddles, Crafts & Crumbs

Why is my baby crying?

Hunger

Wet/dirty nappy

Tired

Overtired

Overstimulated

Too hot or too cold

Bored

Separation anxiety

Wants a cuddle

Teething/In pain

Trapped wind

Uncomfortable

In a leap

If you think that your baby is in need of medical attention or something just doesn't seem right then please do get in touch with your GP (Mon-Fri during working hours), 111 (out of hours or weekend) or 999 (in an emergency) depending on how severe you think it is. Your instinct is such a powerful thing and if you're ever worried don't just ignore it.
